

Meeting held on issues of Same Gotra Marriage and Female Fetecide

Kurukshetra (01/09/13)

A meeting was held in sec 3 under the banner of "Akhil Bhartiya Mahila Shakti Manch" in which two most prevailing issues of "Same Gotra Marriage" and "Female Fetecide" were discussed. Dr. Santosh Dahiya, the president of this manch, (who is also the president of woman wing of "All India Sarv-Khaap") was the main speaker of the meeting. All the participators of meeting put their views on both topics.

Dr. Dahiya argued that marriage within same gotra were never the custom of Hindus and never appreciated. This is not just about the rituals, customs, culture and civilization but same gotra marriage is wrong on scientific parameters too because it causes genetic disorders and diseases and will prove fatal in future. She further added that due to all these reasons Khaap Panchayat denies same gotra marriage so we the women of this meeting also support the argument of Khaaps.

Dr. Dahiya appealed the gathering to safeguard the daughters. She said that it is impossible to imagine any kind of society without daughters and increasing misuse of technology like ultrasound is proving a curse on their existence from very beginning of their fetus in womb of their mothers. So they should be safeguarded from womb very first. She decided to start a mission to discuss and collect memorandum from head and committees of all religious 'Dharmshalas' of city on both

issues. She was accompanied by Monika, Aasha, Rani, Reeta, Beermati, Kitaabo Devi, Sudesh Rani, Sheweta Singh, Radhika Devi, Ramrati Devi, Kamlesh Kumari, Mukesh Kumari, Parmila Devi. and Sarita Devi on this occasion.
